## Experience a day in the life of a Koru K9 balanced dog trainer

Have you ever wondered what it would be like to become a balanced dog trainer?

We can tell you from experience: one of the best parts about being a dog trainer is that no two days are ever the same. Every day comes with new challenges, new wins and new rewards.

So, what are those challenging-yet-rewarding days like?

**Read our latest blog post to find out.**

It breaks down a day in the life of the Koru K9 dog trainers who run our board and train and in-home training programs.

### Story of the month

## Bruce

The bigger the dog, the more important training is. Already 75 pounds at seven months old, Bruce's owner wanted to get him trained so they could keep their big pup under control.

As his owner put it, Bruce came to Koru K9 "a rambunctious large-dog-sized puppy with separation anxiety and returned a well-behaved young Newf with dramatically improved obedience skills."

### Trainer highlight

## Sean Hagner

A veteran of the military, it was Sean's time with the U.S. Armed Forces that inspired him to become a dog trainer as well as work in the police canine training field.

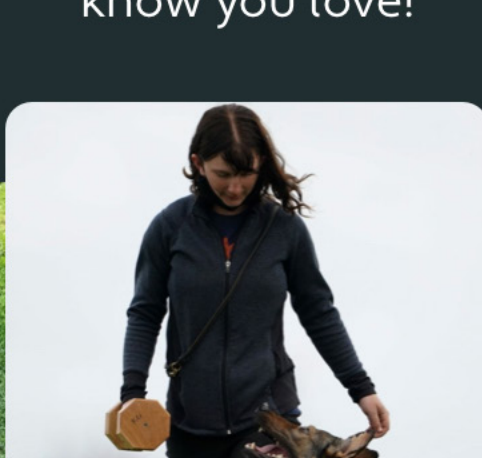

We're thrilled he did! Sean has become a valuable member of our St. Louis team.
